

## **ATLASGLOBAL AIRLINES SAFETY POLICY**

Safety is one of our core business functions. We are committed to maintaining and constantly improving strategies and processes to ensure that all our aviation activities are aimed at achieving the highest level of safety performance and meeting regulatory requirements.

Our commitment is to:

- Support the management of safety through the provision of all appropriate resources for safe practices and effective safety reporting and communication;
- Ensure that safety is a primary responsibility of all managers and employees;
- Establish and operate hazard identification and risk management processes, including a hazard reporting system, in order to eliminate or mitigate the safety risks of the consequences of hazards resulting from our operations or activities to achieve continuous improvement in our safety performance;
- Ensure that no action will be taken against any employee who discloses a safety concern through the hazard reporting system, unless such disclosure indicates, beyond any reasonable doubt, gross negligence or a deliberate or wilful disregard of regulations or procedures;
- Comply with legislative and regulatory requirements and standards;
- Ensure that all staff are provided with adequate and appropriate aviation safety information and training;
- Establish and measure our safety performance against realistic safety performance indicators and safety performance targets;
- Continually improve our safety performance through continuous monitoring;
- Ensure externally supplied services are delivered meeting our safety performance standards;
- Maintain an emergency response plan and to provide the resources to implement it.
